Michael Ruckstuhl

High Quality Frontend Development

Core Skills

Frontend Development with HTML5, CSS3 and Javascript (jQuery).

Methods, Libraries, Tools

Mobile first, responsive web development.

Emphasis on robust, clean & maintainable code.

Extensive experience in working with the Bootstrap and Foundation frameworks.

CSS preprocessing with Sass. Gulp or Grunt as task runners.

Git or SVN for version control.

Experienced working in a team using Scrum/Agile methodologies.

Web Accessibility according to WCAG 2.0 if desired.

Experienced with code integration in Wordpress, ProcessWire and other CMS.

Comfortable in working in projects with AngularJS, PHP, MySQL, Node.js and many more.

Accessibility and Frontend Performance Consulting

I also take on consulting work: I will analyse your web project. What to fix first? Where to start?

I can help and provide a strategy customized to you.

More

Extensive knowledge of Adobe Photoshop, Illustrator, InDesign.

Trained eye for typography, layout and colors.

Experienced in working remotely or on site.

Solid knowledge of search engine optimisation and pagespeed optimisation.

Solid understanding of pre-press and print production.

Languages

Fluent in German, English and French.

Good basic understanding of Spanish and Italian.
